

WHAT WOULD YOU PAY FOR A BAG?

National Retail Association In August 2018, the National Retail Association asked shoppers what they were willing to pay for 5 types of shopping bags if they forgot to bring their own bags.

96% of shoppers are willing to pay for a shopping bag if they forget their own

PLASTIC BAGS	ALTERNATIVE BAGS
of every 10 shoppers are willing to pay for a plastic shopping bag (if they forget their own bag)	of every 10 shoppers are willing to pay for an alternative bag (if they forget their own bag)
Willing to pay for a 40 micron plastic singlet bag Willing to pay for a 40 micron plastic singlet bag Willing to pay for a theavyweight plastic bag	of those willing to pay: 87% are willing to pay 10c to 50c for a paper bag 75% are willing to pay are willing to pay are willing to pay at least \$1 for a non-woven bag
92% of shoppers reacted negatively to a plastic singlet bag, even though it was technically compliant and labelled 'reusable'	83% are willing to pay at least \$1 for a cloth bag
If a business gives out 100 free plastic singlet bags every day for 5 years, it will cost them up to \$15,000	If a business introduces an alternative bag that consumers value and charges a fair price for this bag, the amount of bags consumed (purchased) drops by
